

MONETARY AND COMMERCIAL

Financial Affairs.
Money matters were fairly active yesterday so than they were on Thursday. The superior currency was not large, but fairly equal to the demand. The Discount-Houses were doing all the moved Paper their customers offered, at 10 1/2 per cent., and few good names were seen in the list.
Though business is quiet in Third-street, it is daily improving, and the indications of the

Foreign Antium trade are already apparent.
Intern Exchange was firm with all the Bechers
paying out. The London selling exempt Ball-
Checks, for which dealers paid no more than
200. prem.
Gold was quiet at 140 buying and 140.000. premium
The States of New Orleans Exchange continued un-
changed and nominal, and in Uncurrent Money
was no alteration.
Our continued dull, yesterday, with a trifling
and; prices to a greater extent being nominal.
Cables was an idle, only, at 80 and 80.000.
The gold, with sales of 100 lbs. at 100.000.
The silver remained quiet with little or no demand.

Autumn trade are already apparent. The market for foreign exchange is busy, and the buying and a premium selling, except Baltic, which is still a dealer paid no more than 20c. premium.

Wheat was quiet at \$4 buying and \$4.00c. premium. The rates of New Orleans Exchange continued unchanged, and the rate of the United States was no alteration.

Corn continued dull, yesterday, with a feeling of uneasiness to a small extent. The market sales were 223,000 bushels, at \$4.00. Wheat was quiet, good, with a feeling of uneasiness to a small extent. The market sales were 223,000 bushels, at \$4.00. Wheat was quiet, good, with a feeling of uneasiness to a small extent. The market sales were 223,000 bushels, at \$4.00.

Grades were in fair demand and steady for wheat. Corn and Rice were firm, and Beans and Peas were in fair demand. Hides were in fair demand; while Hay was unchanged.

The Imports and Exports of various articles during the twenty-four hours ending yesterday noon are as follows:

Wheat—April, 1,431; Barley, 2,523 bushels. Butter, 2,000; Coffee, 2,000; Cacao, 145 boxes; Tea, 533; Beans, 1,533; Rice, 1,533; Hay, 101; Cattle, 101; Horses, 101; Sheep, 101; Pigs, 101; etc.

the Money market. If any change can be reported, it is rather easier on call than yesterday. The

[illegible][illegible][illegible]

demanded for credit is rather on the increase, although very limited. New York funds are not abundant, but the market is not so tight as it was a year ago. A few small lots of specie have been received, but the amount has not only sufficed, as yet, to meet the needs of the Treasury, but the United States Paper in New York continues to be in demand. The Bank of England has been in requisition for the very best London, either on call or time. The outcome favors on time (London or Paper Money) at 10 per cent. The Bank of England has been herebefore, at 14 per cent, on loans secured by the Government bonds.

NEW YORK CATTLE MARKET.—Tuesday, August 14.—At the Livestock Market, the receipts of animals of all kinds were 1,300, the number almost exactly the same last week; the market was quiet, and the animals at all the regular yards, for the week ended August 13, were as follows: 1,000 Cattle, 1,000 Hogs, 600 Veal Calves, 14,000 Sheep and Lambs, and 25 Live Hens. Total, 25,000 head. At yesterday's market, the prices of the various kinds of animals were actively commenced on Tuesday—hewers sold at 10¢ per lb. for the best quality, 9¢ for the medium and low grade. A very few extras at 11¢ per lb. per pound, estimated dressed weight; the market was not so good for the lower grades, according to quality. Average of all sales, 10¢ per lb. for the best quality.

[illegible]

On occasional extra animal; p prices range from \$1 down to 915. Val Calfs are not quite as high, but are still in demand. The market is generally good except for extras. Good fresh are scarce, and all are at a premium. The market is generally good for extras and is about 20 per cent lower. Live Hogs are a little lower.

Monday's Market.

Yesterday's St. Louis Democrat says:

Scarcely ever before was there felt such a lack of exchange or bankable funds in St. Louis. The trade in currency has been so low for some time that it has absorbed all the currency and a great deal of the bank funds. A further issue was commenced, but it was at once absorbed. The market for currency has checked in, from a fear of a too easy reissue.

Exchange is generally quoted at 1/2c premium on New York, and 1/4c premium on Chicago. In the East, though occasional sales may be had at low rates, the market is generally at a premium. The rate of Exchange is fluctuating in Chicago, and is being made rapidly, and can doubtless be had at 10 per cent premium for currency. The market is at a premium of 1/2c on New York, and 1/4c on Chicago.

Traders of Thursday says of the Money market:

The market is about the same as yesterday. It is the summer, the large influx from all sources in the past few days has enabled Bankers to meet the demand for currency.

has checked in, from a fear of a too easy exchange is generally quoted at 4% premium on the East. Though occasional sales may be had at low rates, the market is not so liquid as it was. The rate of exchange is fluctuating in Chicago, and it being made rapidly, and can doubtless be had at 1/2 per cent. premium for Currency. The *Press* Tribune of Thursday says of the Money market: "There is a considerable amount of money in circulation, but it is uneven, the large influx from the past few days has enabled bankers to meet the demand for currency, but the rate of exchange is heavier than it was ever before known in the West."

MISSOURI MONEY.—The amount of Missouri money sent here for investment in exchange is very large, and the market is not so liquid as it was formerly of the mills. One banker estimated the receipts of the currency from customers in deposits, and the amount of the currency sent here, at \$1,000,000, retained variously by the bankers. It was estimated that the amount of the currency sent here, retained to sell Exchange was \$1,000,000. The very large amount of the currency sent here, and the very comfortable course, which the St. Louis market has taken, to buy Exchange here with Missouri money

is heavier than it was ever before known in the history of Missouri MONEY.—The amount of Missouri money sent here for investment in exchange is very large. It has become a feature in the financial history of the city. One banker estimated the receipts at \$100,000 per month. The banks have accepted the mail-transfers from customers' deposits, and treated variously by the bankers. It was found that the banks were not prepared to receive them, returned to send Exchange as fit in large quantities. This has been a source of great discomfortable scheme, which the St. Louis bank formed, to buy Exchange here with Missouri money at five per cent., will not work.

Cincinnati Market.

CINCINNATI, FRIDAY, AUGUST 24.

WHEAT—The market continues dull and demand light, and prices, to great extent, nominal; 78 cents for Hamilton's No. 2 red winter wheat, and 76 cents for Miller's red wheat, at 54 lbs. per bush. Hamilton's No. 2 white wheat where abundant, at 79 cents, and what, at 84 cts.

WILKES—The demand continues good, with sales of 100,000 bushels, the balance of the crop being sold at 100 cents.

CONDITIONS.—A continued quiet market with

[illegible][illegible]

CORN.—The demand for ear is good, and the market is firm at \$2.00. Shelled is in good demand at 58 3/4 cts. for mixed and white, including sacks.

WHEAT.—The market is firm. Further decline 1/2 cts. per bush, closing at 52 cts. in bulk, sales 2,000 bush, in sacks, at \$21, 200 do., from store, at 21c.; 200 do., from store, at 20 1/2 cts. in bulk.

RYE.—The market is steady, with a fair demand for prime.

BALLY.—The demand is limited, except for prime, which is in demand at 100 cts. per cwt. at 60 cts.

WHEAT.—The market is unchanged and firm. White, prime Timothy, in bales on arrival, at \$14 50 per cwt.

WHEAT.—The demand is good and the market firm at 52 cts. for prime Western Reserve.

WHEAT.—The demand is good for prime fresh at 14 1/2 cts. for Western Reserve, and 14 1/4 cts. for Central Ohio; common is heavy at 53 cts.

By Telegraph.

New York.

NEW YORK. August 24.—P. M.—The demand for Flour was more active both for export and
